Comments

Receipts:

In auditing the receipts listed above, we tried first to determine the amount of money which should have been received from each class of receipts, and then compared this amount with the corresponding amount recorded in the books of the Town Treasurer and of the Selectmen.

For example, the amount turned in from tax collections was verified by a detailed analysis of the Tax Collector's record of collections, taking into account the date of all collections and the consequent discounts which should have been allowed. Similarly, funds received from the State and County were verified by direct correspondence with the State Treasurer, and County Commissioner, while receipts from other departments, such as those of the Town Clerk and the Municipal Court, were verified by means of an audit of the records of each department.

Disbursements:

Proper vouchers, in the form of cancelled checks and purchase invoices, were examined to determine support of disbursements listed above. Further, we assured ourselves that in all cases disbursements of funds had been properly authorized and correctly distributed in the books of record.

curable with regard to the original cost or the present depreciated value of these items.

(2) It appears to have become the prevailing judgment of authorities on Municipal Accounts that such Assets constitute the property of the People as distinct from the Town, the Town acting only as the Agent of the People in acquiring these Assets for the People through the funds provided by the People.

REPORT OF OVERSEER OF POOR

This department has furnished aid to 17 individuals and 45 families. Assistance was given for the following reasons:

Town Poor

Unemployment of wage earner 9
Patient County Hospital, old age and illness 1
Old age and sickness 4
Husband in jail 2
Widow with family 1

County Poor

Unemployment of wage earner 19
Desertion of wage earner 2
Husband in jail 5
Taxi to County Farm 5
Mentally deficient, board and care 2
Old age 3
Illness 9

Careful investigation in each case has been made.

Occasionally I find mismanagement the cause for destitution. In such cases I have no sympathy for the adults, but the children who were innocent sufferers cannot be left in want, and it is for their welfare that assistance is granted.

Those who have sponged on this department for a number of years have been culled out. These worthless men have been given the choice of supporting their families or going to jail. I have only had to jail one man. Suspended sentences have been given in each case where the man has shown willingness to care for his family.

In desertion cases no expense has been spared to bring the individual back to his family. The court has given me every aid in this difficult and sometimes disagreeable task.

There is a small group of wage earners who are up against it when employment ceases. The high

cost of living and the small amount of credit extended brings to us families who are worthy of temporary aid. I find in these cases that there must be constant employment for the head of the family to keep the family from actual destitution. I give reasonable aid to these people and use every effort to secure employment.

This class ought not to be pauperized, and I hope Lebanon will soon have an Associated Charities through which such worthy families may be able to secure temporary aid.

The biggest problem is the bootlegger's family. When this type of individual is sent to jail this department must take complete charge of the family and give all the support needed. This expense is enormous. This item alone is large and without it our expenditures would be much lower than the average town of the size of Lebanon.

I have now established a rule that those who have cats, dogs, automobiles and other luxuries cannot expect to be assisted from the Poor Department.

With its many perplexing problems I have tried to discharge my duties as head of this department with tact, judgment, careful consideration for those who seek aid and always bearing in mind I am spending the tax payer's money.

John W. Barker.

REPORT OF MILK INSPECTION

The reports received from the State Laboratory of Hygiene on samples of milk taken from the Lebanon producers the past year showed well above the statutory limits as regards solids and fats.

The Bacteria count and B. Coli have been low in most of the samples showing sanitary and proper technique by producers and dealers. One case of Undulant Fever reported in town last year which is making a good recovery at this date.

W. B. Mowers,
Milk Inspector.

HEALTH OFFICER'S REPORT

The annual report for the Town of Lebanon for the past year shows that the town has been very free of serious communicable diseases. Three cases of Small Pox the first we have had for over 15 years. A few case of Scarlet Fever but all in mild form.

Monthly reports of water analysis shows the water from the Lebanon supply good bacterially, while the West Lebanon supply shows an excess amount of vegetable matter.

H. B. Hazen, M. D.
Health Officer.
